The First Sweden-Korea Nobel Memorial Program

On 1 December, the first Sweden-Korea Nobel Memorial Program is launching.

The Embassy of Sweden in Seoul will host the Sweden-Korea Nobel Memorial Program to celebrate science, discovery and curiosity. The Program will take place online at a one-day event on December 1st. Three symposia will be arranged devoted to this year’s Nobel Prizes in the Sciences, Economy and Literature.

“there is a lot of curiosity about Nobel in Korea”

Jakob Hallgren
Ambassador of Sweden to the Republic of Korea

The Nobel Memorial Program aims to spread knowledge about Nobel Prize-awarded achievements and stimulate interest and discussion on science, economy and literature. The program brings together experts and opinion leaders, policy makers and the general public from Korea and Sweden.

The Sweden-Korea Nobel Memorial Program 2020 is organized by the Embassy of Sweden in Seoul and conducted in cooperation with Korean and Swedish Partners: University of Gothenburg, KTH Royal Institute of Technology, Lund University, University of Umeå, and Korea Academy of Science and Technology, Ewha Womans University and Literature Translation Institute of Korea.

The Ambassador of Sweden Jakob Hallgren said “South Korea invest a lot in research and is one of the most innovative countries in the world, and I know there is a lot of curiosity about Nobel in Korea” and continued. “My wish is that the Sweden-Korea Nobel Memorial Program will stimulate the dialogue between the two countries on higher education, research and development in the areas of Science, Technology and the Humanities.”

The target groups for these symposia are practitioners and specialists as well as interested students and the general public.

Full program of the Nobel Memorial Program is available on **official website of the Nobel Memorial Program**
www.nobelmemorialprogram.kr

For Registration

1 December 2020

Sciences Session, 13.30-15.30

Economics Session, 16.00-17.30

Literature Session, 19.00-20.30

Register: <https://nobelmemorialprogram.kr/registration/>

NOBEL MEMORIAL PROGRAM

Sciences

A symposium on the awards in the Sciences present the 2020 *Nobel Prizes in Physics, Chemistry, and Physiology or Medicine*.

Everybody can benefit from maintaining a basic understanding of developments in Science and Technology. Join us in listening to expert presentations about this year's awards in works on gene editing and our biology, the reality of black holes and what's possible in a universe, and breakthrough medical treatments for a global health problem.

Economics

A symposium on the 2020 *Nobel Memorial Prize in Economic Sciences*.

Whether it's leisure and entertainment or work and business, it's all part of the economy and it's often online. This year's award catches an important relation between conditions for mobile data and economy with methods to find a price for telecom radio waves.

Literature

A symposium on the 2020 *Nobel Prize in Literature*.

Language is a tool, malleable in our control but demanding to achieve our purpose. Regardless of how advanced we are as readers, we expect recognition and understanding, we take pleasure in aesthetic qualities, and we are sometimes moved. Join a discussion on how poetry help us make sense of the world.

.....
About Nobel Prize

Alfred Nobel was a Swedish chemist, engineer and industrialist. Before his death in 1896, he had described in a will that there should be five prizes established from his fortune to reward achievements that have conferred the greatest benefit to humankind. The *Nobel Prize* is awarded for achievements in Physics, Chemistry, Physiology or Medicine, Peace and Literature since 1901. The *Sveriges Riksbank Prize in Economic Sciences in Memory of Alfred Nobel*, was founded by the Swedish central bank and has been awarded according to the same principles as the Nobel

Prizes since 1969.

The official website for the Nobel Prize is nobelprize.org
